Trump's chances disappear
Why they cheer ain't exactly clear
His face an angry orange glare
He's humping the back of a chair
I think it's time we stop, children, his
hateful sound.
And the Grand Old Party, let's bring it
down.
He's the Klan and Nazi's pawn
His mainstream allies are all gone
Old white people losing their minds
While he's grabbing pussy from behind
I think it's time we stop, children, his
hateful sound.
And the Grand Old Party, let's bring it
down.
For the Democrats what a treat
A man you can bait with a tweet
His campaign is built upon lies
With poll numbers dropping like flies
I think it's time we stop, children, his
hateful sound.
And the Grand Old Party, let's bring it
down.
Donald's paranoia runs deep
Everybody knows he's a creep
He's got a new scandal each day
Driving Women and Big Donors away.

He keeps saying it's fixed with no grounds
Cause everybody knows he's going down
Stop, Donald. You're a clown
Everybody knows you're going down
Stop, Donald. You're a clown
Everybody knows you're going down
Stop, children, his hateful sound
Everybody help bring Trump down.
